NEWSPAPERARCHIVE®

How French Market Coffee Became the National Drink of the South!

For over a hundred years this coffee has been known throughout America, because French coffee, with all its original flavor, for over a hundred years has been served at the old French Market in New Orleans.

Andrew Jackson refreshed his troops with it after his famous victory. Henry Clay was entertained in the old Hotel Royal near by, when coffee from the French Market was served. The beaux and belles of the old time Mardi Gras seasons always adjourned to the old French Market at midnight for coffee, for the peculiar feature of the old French Market blend is that while mildly stimulating, it is always considered a healthful beverage to be drunk even at midnight.

Naturally, this blend of coffee, which could be had nowhere else but at the French Market, became famous throughout America. But it was not until the invention of a hermetically sealed package, a comparatively few years ago, and the establishment of the French Market Mills to roast this identical blend by special machinery, that this coffee could be shipped all over the United States.

At once the demand for this coffee spread throughout the South, for in most houses in almost every town in the South there is someone who has heard of this famous old blend, through their parents or grandparents. Today, in almost every section of the South, you will find French Market Coffee has a tremendous sale. So much so that the stores handling it are always able to deliver it fresh to their customers, because the demand for French Market Coffee is so great that frequent

shipments are made to every store handling it, so that while other coffees may stay on the grocers' shelves for some considerable period before being sold, you can always rely on French Market Coffee being a fresh stock and but a short time on the grocers' shelves, because it sells so much quicker than any other coffee that has ever been sold in the South.

Think what it means to you to be able to go to any grocery store in the South, order a can of French Market Coffee and be sure of obtaining this identical, famous old blend, *absolutely fresh* from the wonderful French Market Mills, which were built expressly to roast and perpetuate the genuine French Market Coffee.

Appreciating the honor the Southern people have paid them—in making French Market Coffee the National Drink of the South—the directors of the French Market Mills will continue to rigidly maintain the standard of this famous old blend—which in future, as in the past, they guarantee shall in every way be worthy of its reputation as the National Drink of the South.

French Market Mills, New Orleans, La.
